Important Announcement

Speed-O-Controls Pvt. Ltd. would like to thank all their customers and readers for making our monthly newsletter a resounding success. We are pleased to announce the new format of the newsletter, which will now be Quarterly. SOC will now provide more content to read, including a special Technical section which will talk about our new products and technology being developed. We for your continued readership. Here's wishing all our readers a very Happy New Year 2018 !!!

New 7 Bar Safeduct System supplied to Teemage-Kanchipuram

Speed-O-Controls Pvt. Ltd. Recently bagged and executed an order from Teemage Engineers for special 7 Bar Safeduct (Enclosed Conductor Bar System). The complete system was manufactured in-house in the new Sleeving machine recently commissioned in the Ahmedabad Unit of SOC. The new machine is also capable of customizing the end users LOGO on the conductor bar sleeve alongwith specifications. This will help reduce stress in spare management & ordering for the customer.

Product of the month Radio Remote Control Impact 301
