

# SPEED-O-CONTROLS NEWS

News Letter No. 2, February 2016

## Successful Mahatech 2016, Pune.

Speed-O-Controls (SOC) successfully Exhibited their products at Mahatech 2016, held in Pune from 4th Feb - 8th Feb. SOC also announced the launch of its new product Line: LOAD CELLS & DYNAMOMETERS

During the trade show, SOC received enormous response from many local companies regarding their range of products in the control gear segment for EOT Cranes.

The Trade show was visited by over 1 Lac visitors from the Material Handling Segment and SOC had some interesting meetings throughout the tradeshow. Overall Mahatech 2016 was a very successful show.

We thank all our respected clients who visited us and spent their valuable time meeting us.

## Exclusive Product Training for Novel, Pune

SOC conducted a training session for their new partners, Novel Industrial Equipment & Services, Pune on 4th February 2016.

This training was oriented towards products that are currently manufactured by SOC & focused on installation and commissioning of these products. We look forward to this co-operation.

## SOC Launches New Website and Social Media Pages

SOC group is pleased to announce the launch of its new website [www.socremote.com](http://www.socremote.com). This website is designed to showcase all our electronic products for the material handling segment and focuses on promotion of these products. The products include Radio Remote Control Range, Pendant Push Button stations, Load Cells and Dynamometers and other electronic devices. Please visit our website for more information.

Alongside this new website, we have forayed into various social media platforms for keeping our valued customers updated with our recent developments. The aim of this is to create real time awareness of the increasing range of SOC products. We also hope to receive your valuable feedback via these platforms. To find us, all you need to do is, search Speed O Controls on your favourite Social Media website.
