SOC has also tied up M/s AMCO international who shall be Incharge of all enquiries and dealing with respect to SAIL Rourkela

Recurring Success in Flame Proof Products

Speed-O-Controls Pvt. Ltd. have been pioneers in the field of Flame Proof Products. In the month of July there was a repeat order for FLP Radio Remote control systems which was executed in a record time frame of 12 days including the housings and dispatch.

The aim of Radio Remote Unit is to provide excellent turnaround times even for customized solutions which formulate a bulk of the total sales.

Product of the Month Crane Scales

SOC breakthrough in the USA markets

After a few of hardwork and intense technical meetings , we are pleased to announce the receipt of our first high value order from USA. The user is from the East Coast and the supply shall be made in the month of September to the Florida Region in Miami.

The order shall include the supplies of C-track Systems, Shrouded Busbar systems and Limit Switches for EOT Cranes.

SOC aims to capitalize on this success and slowly enter the remaining parts of USA especially Dalls where the major portion of the material handling industry is located.
