SOC Bags Order for Revamping of 75/15 Ton Overhead Crane from Madras Atomic Power Station (Kalpakkam)

Speed-O-Controls Pvt Ltd. has successfully bid and won the tender for Revamping of 75/15 Ton Crane. This was an open tender issued by NPCIL and there were many competitors, However, NPCIL has awarded the tender work to SOC based on their previous credentials and works carried out for NPCIL by SOC at various different sites across India. This revamping job consists to changing the entire Electrical Structure of the existing crane i.e., Panels, Brakes, Limit Switches and further modernization to Shrouded DSL System and advanced Radio remote System. The work also includes mechanical overhauling and repair work.

Successful partnership with Stück Construction – Denmark

Speed-O-Controls Pvt. Ltd. have added another European distributor/ representation in the European continent. Stück Construction is a well-known company in Denmark and is a reputed hoist manufacturer. Speed-O-Controls has exported 2 consignments to Denmark in the last month.

Specialised Radio Remote Control Systems for BHEL – Bhopal

Speed-O-Controls Pvt. Ltd. has been very active in the past one year for bidding RRC technology related projects in Indian Government Sector. This month after a long gruelling technical & commercial dialogue, Speed-O-Controls Pvt Ltd had been awarded a tender for supplying & installing 20 special RRC systems with 10 push buttons (double speed). The same has been supplied last month in a record time to M/s BHEL – Bhopal.
